RENZIT® STAND ON QUALITY

Ukrainian Sawmill Holding Company is an environmental sustainable

The largest European manufacturer of woodprocessing equipment, i.e. German based company LINCK who guarantees sawing tolerances of $\pm 0,5$ mm, providing perfect sawn timber geometry as well as highest recovery rates.

Operation
24
hours
7
days per week

Dry kilns supplied by Austrian company Mühlböck, providing the highest quality of drying with minimum energy consumption.

The amount
of investment over
200 mln
Euro

The plants main product is the graded KD sawn timber. Two SPRINGER sawn timber sorting lines are grading the sawn timber by quality and dimensions and guarantee a product sortiment in correspondence with the quality demands and standards of any customer.

A MICROTEC quality control system limits the human factor to a minimum

1 REZULT TECHNOLOGY

Modern technologies

A healthy combination of high-tech state of the art equipment with innovation.

2 REZULT MATERIAL

High-quality raw materials

All REZULT products are made of Certified timber only.

3 REZULT ECOLOGY

Exploitation safety

Safety and ecological properties of products and production units are confirmed by the appropriate certificates and meet all international norms and standards.

4 ABSOLUTE CONTROL

A team of international experts providing strict control at all stages of the Manufacturing process, starting from raw material input ending with the delivery of the final to the Customer.

5 REZULT ENTERPRISE

Full automation

One of the most powerful and progressive production lines in Europe with high precision European equipment.

6 REZULT CUSTOMER FOCUS

Our business processes are managed by the "voice of the customer"

Highest customer satisfaction as a result of Personalized customer service together with a strict 24 hour respo response policy.

7 REZULT PRO RELIABILITY

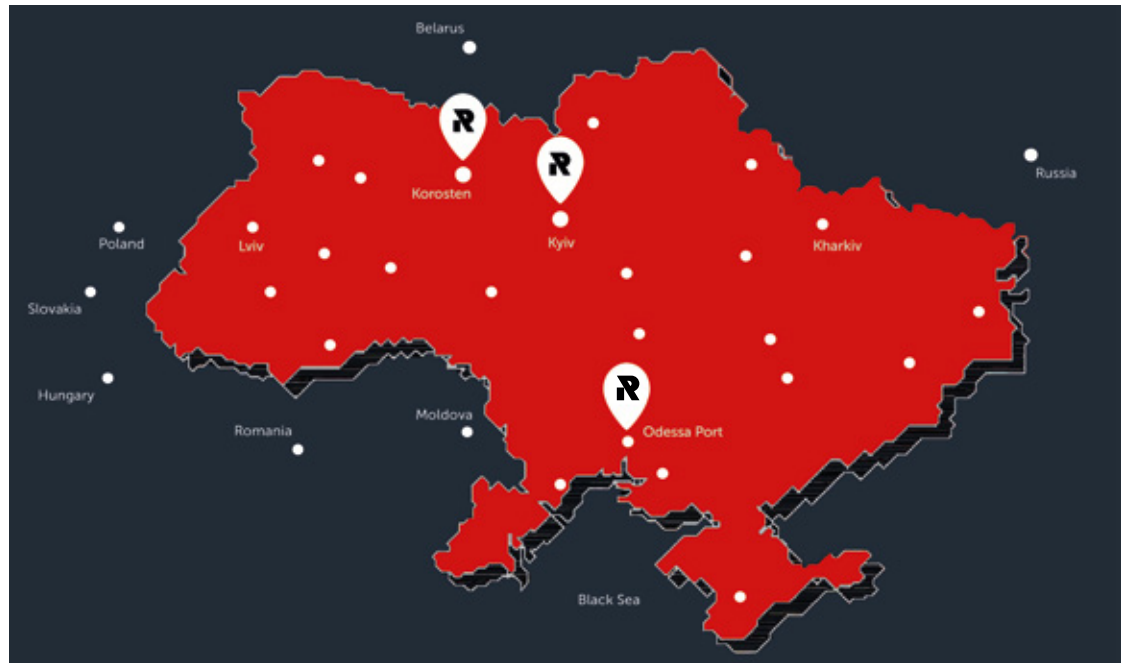

Honest guarantee

REZULT is a guarantor for stability and quality Starting from partnership relations to the quality and on-time delivery.

Glued and profiled products

Production capacity per month:

KVH (finger-joint) = 7000 cubic meters; Glulam = 5000 cubic meters;
Pine furniture panel = 9000 square/m; Multilevel carpentry panel = 6000 square
meteters; S4S = 4000 cubic meters

Production line equipment:

WEINIG, LEDINEK, SALVADOR, WACO, MICROTEC, FROMM,
HYDROMAT, WIDEMAT.

Multilevel
carpentry panel
6 000
square meters
per month

Product List:

glulam for timber constrictions, KVH (finger-joint), S4S (calibration timber), furniture panels, multi-layer panels (HDF*pine*HDF), wall moldings (it can be primed, painted or wrapped in waterproof paper. In this way all possible defects become invisible - the perfect surface for coloring), baseboard (MDF, pine).

KVH
(finger-joint)

7 000
cubic meters
per month

Dimensions of Glued beam:

Height = up to 700 mm;

Width = up to 300 mm;

Length = up to 13 500 mm.

Pine furniture panel

9 000

square meters
per month

AkzoNobel certified adhesive systems are used for the production of glued and finger-joint goods. All of them are approved by the most authoritative institutes of the branch: Materialprüfungsanstalt Stuttgart, Otto-Graf (MPA), Technologique FCBA France, SKH/KOMO (DHBC #32389), Holland ta BUtgb (ATG 06/2662) Belgium.

S4S

4 000

cubic meters
per month
